SKCL

Piling for National Stock
Exchange Building, DEC Infra

Excavation for Phoenix Market City,
Phoenix Mills

Civil Works related at
Mechanization of Port, Karaikal

Demolition for Concrete Structure,
Puravankara Projects

ABOUT US

ASB Infrastructure Private Limited was established in the year 2009 with an objective of providing infrastructure services such as Pile Foundation, Civil Works, Excavation, Demolition & Roads. The Promoters of the company have been providing services in the field of earth moving equipments since 1994. The company aims to capitalize the experience of the promoters and also diversify into bigger areas by expanding its scope of services and catering to various needs of the customers.

We follow the best proficiency in deploying modern methodologies to suit the requirements as per the standards and every effort has been taken to provide all type of services to its customers.

OUR SERVICES

PILE FOUNDATION

Pile Foundation has always been the core business of our company, with experience that includes foundation for high rise building, bridges, flyovers, industrial structure, warehouses, factories, ASB infrastructure has become pile foundation contractor for many leading companies and their engineers. Since inception of the company, we have been focusing on providing various types of pile foundation (Size ranging from 500mm dia to 1200mm dia), such as Bored cast-in- situ piles, Contiguous piles and Secant Piles.

CIVIL WORKS & ROADS

Civil works related to Machinery Foundations, Substation, Transformer Yard, Compressor building, Coal Yard development, RCC Cable trenches, Drains, Hume Pipe, Culverts, Roads, compound wall, Retaining wall etc.

EXCAVATION

Established in the year 1994, started with hiring of excavators, it has become a trust worthy service provider in the field of excavation. Skilled in planning, scheduling, executing, it is professionally managed through well qualified and experienced engineers with modern hi- tech machineries in the areas of infrastructure development like Site development, Filling Work, Transportation of materials, supply of earth, Soft rock excavation & Hard Rock excavation using rock breakers, diamond cutting and Rock splitting method.

DEMOLITION

ASB Infrastructure also renders service in the field of demolition like demolition of old buildings, concrete structures, multi storey buildings, commercial buildings, factories etc. We have the latest equipments and machinery to cater to the requirements of its clients.

PROJECTS EXECUTED BY ASB INFRASTRUCTURE (P) LTD

PILE FOUNDATION PROJECTS

S.No.	Projects	Client	Nature of work	Value (in lakhs)
1	Pile Foundation for Multi Layer Car park at Greams Road, Chennai	Apollo Hospital	Bored Cast in situ piles of 900mm dia about 20m depth	125
